www.jerseyrally.com

The Jersey Motorcycle & Light Car Club is pleased to announce the 41st year of running the Jersey Rally.

Our event cannot be organised without the support from our sponsors. Once again, we are delighted to have Roberts Garages as our main sponsor and the support of their parent, Motor Fuels Group (“MFG”), along with other individual stage sponsors to whom we are very grateful. A full list of sponsors can be found on our website www.jerseyrally.com.

The event will be running over two days with two stages to be run on the Friday afternoon, Friday evening, Saturday morning and Saturday afternoon. Each stage will be run a number of times over the two days, giving us up to 103 stage miles & up to 112 road miles. For those that retire on the Friday and manage to get back up and running there is a Trophy Rally on Saturday 12th. More information will follow in the finals.

Rally HQ and the service area for the event is once again being held at RJA & HS in Trinity. This is usually the focus venue for the general public, crews and officials. We are hoping to have a range of activities and displays in the main hall supporting the event.

The main social venue will be The Merton Hotel, St Helier, JE4 9PJ. This could also provide a nice weekend break for partners, family and friends. If you would like to use the Merton as your home for the weekend, please do not leave it too late to book. The Merton have once again provided us with great rates for the weekend. To take advantage of these please use Jersey Rally when requesting your rooms. Don't forget to book your Saturday night award presentation meal tickets early as they do go quickly.

Should you be unable to compete in the rally this year, but are interested in helping out, please contact secretary@jerseymotorsport.com

The Organising Committee would like to take this opportunity to thank everyone for their help, including Competitors, Marshals, Officials, Medics, Timekeepers, Radio Operators, Recovery, Set-Up Crews and those who clear everything away.

A special thank you to the Parish and Government Officials and especially the landowners and residents that help to make this event possible to run

We look forward to seeing you at this year's Rally, thank you for your continued support.

Once a competitor's Cumulative Lateness, calculated from the previous Main Time Control, exceeds the penalty free maximum of 15 minutes a competitor will be disqualified at the discretion of the Clerk of the Course from the results. (Article 21.3).

18.12

Should any recorded time not be legible, or not appear authentic, the Organiser's may use any means at their disposal to establish a time.

18.13

The following shall describe the various types of Time Controls in accordance with the Motorsport UK Blue Book R11.5, R11.5.1, R11.5.2 & R11.5.3.

(a) Main Time Control (MTC)

In accordance with Motorsport UK Blue Book R11.6, R11.6.1, R11.6.2, R11.6.3, R11.7. .

The Jersey Rally will operate Main Time Controls (MTC) at the beginning of Friday's rallying and at the end of Friday evening's rallying, and again on Saturday Morning concluding with an MTC at the conclusion of Saturday afternoon, everything else will be a Time Control (TC).

A competitor who is early at an MTC (IN) may wait for their Due Time outside the Control.

At an MTC (OUT) & TC, Competitors will restart at designated intervals either in number order or in order of their arrival at the MTC (IN), or as may be specified in an Official bulletin.

Each Competitor shall be given a due starting time from any MTC (OUT) & TC. The difference between this time and their actual starting time will be counted towards exclusion for cumulative lateness. Also, a time penalty will be applied.

Competitors arriving at any MTC (IN) within their maximum permitted lateness will, subject to the above, restart from any MTC (OUT) with Zero lateness, i.e. lateness is accumulated only between two successive MTC's.

(b) Special Stage Arrival Control (SSA)

At this control the competitor will be given their time of arrival and will have a minimum of 3 minutes after the arrival time. The area between the SSA Control and the SSS is Parc Ferme as per R31.2.11.

(c) Special Stage Start Control (SSS)

At the SSS a competitor will be given a Start Time for the Stage in hours and minutes, and seconds. Failure to be ready after time allowed will be penalised in accordance with R 32.2 (d) and R 32.13 (e). Any crew refusing to start will be penalised as R 25.8.2. The start will be signalled by traffic lights which will go from RED (15 seconds to go) through AMBER (5 4 3 2 1) to GREEN at the start time. Electronic beams will be used to determine a jump start. No Verbal 30 second warnings will be given.

(d) Special Stage Finish Control (SSF)

At the SSF a competitor will be given their Finish Time in hours, minutes, seconds and 10ths. This time in hours and minutes constitutes Start Time for the following Road Section.

Any Competitor who fails to stop at the Stop line must return to the SSF on foot, reversing the car is prohibited, subject to a penalty of disqualification R 32.2(p).

(e) Service Control (SV)

All Service Areas will have IN and OUT Time Controls. At Service Areas not designated as MC's a Target Time will be specified between these controls. The Section between SV (IN) and SV (OUT) will be marked as a Road Section.

(f) Passage Control (PC)

At any point indicated in the Road Book, the Organisers may establish a PC in order to collect Time Cards from Competitors or for other purposes. A Competitor failing to provide the necessary documents at any PC will be deemed not to have reported there and will be disqualified, Article 17.1 & 17.7.

Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book, and not to calculate Cumulative Lateness

All Controls will open 15 minutes before the Due Time of Car "0" and close 16 minutes after the Due Time of the last Competitor still running, having taken into account any delays. Regrouping controls will/may be established along the route and will be subject to the rules governing Time Controls. The purpose of these regroupings will be to reduce intervals, which may occur as a result of late arrivals or retirements. The time of restarting from the regrouping control will not be determined by the duration of the halt, and therefore the first car will restart at the scheduled time and other cars at one minute, or 30-second intervals according to the basis of the road timing for that leg of the event. Crews will receive instructions as to their restarting times on arrival at the regrouping control. They must immediately park their cars as instructed in the parking area where Parc Ferme regulations will apply (Article 19). Crews must remain with their cars in this area.
